INTRODUCTION

Computer Science undergraduate and Full-Stack Developer with hands-on experience building, deploying, and maintaining production applications. Skilled in end-to-end development across React, REST APIs, databases, authentication, RBAC, caching, and cloud infrastructure. Focused on turning real-world requirements into reliable, scalable solutions and continuously improving products through practical problem-solving and user feedback.

EDUCATION

Sant Longowal Institute of Engineering and Technology

BE in Computer Science Engineering | *GPA: 8.835*

Sangrur, Punjab

Nov 2023 - Jun 2027

Aadharshila Senior Secondary School

12th Standard: *83%*

Palampur, HP

May 2021 - Mar 2022

TECHNICAL SKILLS

Programming:	C++, Python, JavaScript, SQL
Frontend:	React.js, Redux, Tailwind CSS, Bootstrap
Backend:	Node.js, Express.js, REST APIs, WebSockets, JWT, RBAC
Databases:	PostgreSQL, MongoDB, MySQL, Redis
Cloud & DevOps:	Microsoft Azure, AWS, Docker, Nginx, Render, Vercel
Deployment & Infrastructure:	Linux, Nginx Reverse Proxy, SSL/TLS, HTTPS, Domain Configuration
Development Tools:	Git, GitHub, GitHub CLI, Postman, Hoppscotch, VS Code

EXPERIENCE

Full-Stack Developer *EazyCheckin – Student Startup*

2025 – Present

- Built and deployed a full-stack web application, translating real-world business and client requirements into practical software solutions.
- Collaborated with clients and team members to deliver features, resolve issues, and continuously improve the product based on real-world feedback.
- Managed production software through deployment, server configuration, maintenance, debugging, and regular feature updates, gaining hands-on experience across the complete software lifecycle.

PROJECTS

EazyCheckin *React.js, JavaScript, Node.js, Express.js, PostgreSQL, Redis, JWT, Azure*

[Source Code](#)

- Built and deployed a full-stack hotel management platform for bookings, check-ins/check-outs, room management, billing, and customer workflows, serving active users.
- Implemented JWT authentication, RBAC with configurable permissions, and RESTful APIs using Node.js, Express.js, PostgreSQL, and Redis.
- Deployed on Azure with near-real-time UI updates to keep room, booking, and operational data current for users.

PPP SLIET *React, Node.js/Express.js, PostgreSQL, Redis, Tailwind CSS, Azure*

[Source Code](#)

- Built and deployed a secure online aptitude platform with real-time performance tracking, proctoring, and anti-cheating mechanisms including tab, fullscreen, and key-event detection.
- Integrated Redis-based dynamic leaderboards and PostgreSQL APIs for assessment, submission, and result management, serving active users in production.

Health Care App *React.js, Node.js, Express.js, MongoDB, JWT, REST APIs*

[Source Code](#)

- Developed and deployed a full-stack healthcare platform for doctor-patient authentication, appointment scheduling, and medical record management.
- Implemented role-based dashboards, feedback, and doctor blogging features using REST APIs, JWT authentication, and MongoDB.

POSITION OF RESPONSIBILITY

Student Placement Representative

- Coordinating **campus placement** drives, facilitating **student-company communication**, and streamlining recruitment activities.

PROFESSIONAL SKILLS

Problem-Solving:	Practical debugging and solution-oriented thinking.
Ownership:	Responsible for features from development to deployment.
Collaboration:	Effective communication and cross-functional teamwork.
Client Handling:	Understanding requirements and delivering practical solutions.
